| Physical form | Paste |
| Carrier type | DIDP |
| Pigment Content (%) | 80 |
| Average Particle Size (microns D.50) | 16 |
| Shelf Life | 12 months |

PROCESSING INFORMATION

Meta-Brite DIDP pastes can be used in PVC applications such as extrusion, injection moulding and calendaring. High shear should be avoided as this can damage the pigment particles and reduce specular reflectance.

*The typical values given in this Product Information Sheet are given in good faith for guidance only and are not guaranteed. It is recommended that customers conduct testing in their individual applications to establish suitability for any given purpose.
