

PRODUCT INFORMATION SHEET

META-BRITE GFX 1100-P GRAVURE/FLEXO PRINTING ALUMINIUM PIGMENT

Meta-Brite GFX1100-P is a fine, bright, silver dollar pigment in dry granule form especially formulated for liquid ink applications. The solvent free delivery form provides easy handling and shipping as non-hazardous goods. The unique (MO free) Metaflake production process ensures lowest possible retained taint & odour.

TECHNICAL DATA*

Physical form	Granule
Carrier	Aldehyde resin
Pigment Content (%)	80
Average Particle Size (microns D.50)	11
Shelf Life	12 months

PROCESSING INFORMATION

Meta-Brite GFX 1100-P is broadly compatible with most solvent based ink systems and should first be soaked in an equal volume of solvent for 1-2 hours before adding binder. Low shear mixing is sufficient to achieve full dispersion and will avoid damage to the aluminium flakes.

*The typical values given in this Product Information Sheet are given in good faith for guidance only and are not guaranteed. It is recommended that customers conduct testing in their individual applications to establish suitability for any given purpose.
