

# PRODUCT INFORMATION SHEET

PELLEX CHROME SD2200-SAN

ALUMINIUM PELLET FOR PLASTICS

Pellex Chrome SD2200-SAN is a medium particle size, bright Silver Dollar Aluminium pigment pellet for ABS, PC and other hard polymers where PE is not suitable. Pellex Chrome provides a finish comparable to spray applied coatings. Pellex pellets are completely dust free providing safe and convenient handling.

## TECHNICAL DATA\*

Physical form	Pellet
Carrier type	SAN
Pigment Content (%)	80
Average Particle Size (microns D.50)	22
Shelf Life	12 months

## PROCESSING INFORMATION

Pellex grades are ideal for use in extrusion and injection moulding applications. High shear mixing should be avoided as this can damage the pigment particles reducing the specular reflectance.

\*The typical values given in this Product Information Sheet are given in good faith for guidance only and are not guaranteed. It is recommended that customers conduct testing in their individual applications to establish suitability for any given purpose.
